WORK EXPERIENCE

Frontend Reactjs Developer

[Grass Solutions pvt. Ltd.](#)

March 2023 - Nov 2023

- Revitalized the company's product website using React.js, implementing modern frontend technologies to enhance features and optimize performance. Collaborated cross-functionally to seamlessly integrate improvements, resulting in an elevated user experience and a polished online presence.
- My expertise will involve crafting efficient, single-page web applications that provide seamless user experiences.
- Translated design mockups and wireframes into functional and visually appealing web pages using HTML, CSS, and JavaScript.
- Utilized Reactjs component-based architecture to design and implement reusable UI components, enhancing code maintainability and development efficiency
- Ensured cross-browser compatibility and adherence to web standards for consistent functionality across different platforms.
- Collaborated to optimize UX, streamline APIs, and create 70+ reusable components, reducing bundle size.
- Implemented RESTful APIs and integrated with external APIs for data retrieval and manipulation.
- Created interactive UI using One-way data flow, Virtual DOM, JSX and React concepts.

PROJECTS

- [Grass Software Solution Pvt. Ltd.](#) : product website that provide various services.
